Dear Mr. Flores,

My husband and I wanted to thank you for the work completed on our kitchen. We were very relieved that you were meticulous which each stage of the work, as if it were your own kitchen. Even the contractor our insurance company sent out in the middle of the project was impressed with the sheetrock work that had been completed. We appreciate your high level of professionalism and craftsmanship. It is wonderful to know that there are still individuals who take pride in their work.

Thank you,

Lisa & Raul Camacho
